Engine restarts
Business day same as when the engine last saved state?
yes, same day
no, day changed
Same business day (e.g. quick restart, config reload, crash recovery)
GTC orders: restored unchanged
DAY orders: restored unchanged incl. same-day DAY quote legs
QuoteIndex: fully rebuilt from restored quote legs
seed_once market-maker seeds: skipped — a live quote already restored into QuoteIndex
book_stats.json: restored last_buyInAt + prev_close carry over
GTC combos: restored unchanged DAY combo parents: not persisted, child legs follow order rules above
Business day has rolled over (first restart after date change)
GTC orders: restored unchanged — GTC has no day boundary
DAY orders: discarded logged at INFO, no order.expired published
QuoteIndex: rebuilt only from surviving GTC quote legs; DAY quote legs are gone
seed_once market-maker seeds: fire again for any gateway/symbol whose quote did not survive the purge
book_stats.json: restored unchanged — last trade context always carries forward regardless of day rollover
GTC combos: restored unchanged; any DAY combo child legs follow the DAY order rule above
